Alcock's Porous Plasters.
Calle San Jose 755, Buenos Ayres,
4th Feb. 1881.
J. A. Bennet, Esq.
195 Florida,
Dear Sir,
I have great pleasure in testifying to the efficacy of Alcock's Porous Plasters.
In 1876 I was attacked by Acute Rheumatism in this city, for which the three Doctors who attended me could do absolutely nothing.
After being in bed for 9 months, unable to move any of my limbs, I was advised by a friend to try Alcock's Porous Plasters. I did so, and in 15 days I was completely cured, returning to my work on the City of Buenos Aires Improvements for Mr J C Simpson.
This fact is known to hundreds of persons here. You are at perfect liberty to publish this, and I trust it will induce others similarly afflicted to try them; they are certain to be benefited by them.
I remain,
Very truly yours,
W. MURPHY.

THE GARFIELD DEMONSTRATION.

Nothing could be more expressive of the condolence of the B. Airean public with the American people at the loss of their President than the spontaneous demonstration in this city on Sunday.

At noon the Plaza Victoria was black with people, and at the corner of the Plaza and Calle Rivadavia we noticed some of the principal American residents assembled. In the Municipality the board met at the special invitation of the Lord Mayor, and all the Municipal employees were drawn up in line in the corridors. At the base of the statue of La Libertad in the plaza all the city editors assembled with their various printing office staffs. Mr Huss carrying the flag.

All the streets leading to the plaza were at ½ past 12 o'clock blocked up and the tramway traffic stopped, by the various military bands which the Government sent to join the demonstration, and also by the Italian clubs that took the lead of the procession in order that when they reached the American Legation they might be the first to get away to keep up their own commemoration of the occupation of Rome which came off on the same day, and it was for this reason that the Municipal board did not head the procession but was placed in the centre alongside the press.

In all the principal streets flags innumerable were hung out at half mast, and in the streets through which the procession passed the windows, balconies and doors were thronged with ladies dressed in the deepest mourning. It was evident to all that the people shared with the Americans their great sorrow at the loss of President Garfield, since otherwise, on so very short a notice, it would have been utterly impossible to organise such a demonstration as that which we all witnessed on Sunday.

At half-past one o'clock the head of the column, with Argentine and Italian flags, covered with crape, began to move, the bands playing funeral marches, and such was the number of the members of these clubs, and the crowds of Argentine gentlemen who joined the ranks, that the head of the column passed the Am. Legation before the members of the Press, who were in the centre of the procession, had well moved out of the Plaza Victoria. Behind the standard-bearer of the Press followed General Mitre, who is an Ex-President of the Republic, and in another part of the procession we recognised Ex-President Sarmiento, and some parties said that they also saw Ex-President Avellaneda; but the crowd and crush was so great that it is difficult to say who was not there. We noted, however, a great gathering of the members of Congress and of the Provincial Legislature. Before the procession got half way down Calle San Martin it began to rain slightly, but no one left the ranks and it immediately cleared up. At the English Consulate, in Calle San Martin, the British flag hung at half mast, and at Dr Scrivener's, next door, it drooped over the whole front of the house, and in an adjoining house we noticed the same of the German flag. Arriving at the corner of Calle San Martin and General Lavalle the people in the procession took off their hats, as in the balconies of this house were assembled the principal American residents, and turning the corner, into Calle General Lavalle, the procession passed the American Legation, which was crowded with American residents, the balconies all draped in mourning. Gen. Osborn, American Minister, stood on the balcony with Mr Alvear, Lord Mayor, on one side, and Dr Don Juan Carlos Gomez, the President of the Press Association, on the other. Two doors further up the street is the American Consulate, which was also draped in the deepest mourning. In the balcony we recognised Mr Baker, American Consul, Mrs Baker and a number of American ladies. The procession, having passed the American Consulate, proceeded for about another square, in order to allow exit for the people and then separated.

We understand that when the procession terminated and all was over, the American residents held a meeting at the Legation, and certain resolutions were passed with a view to give permanence in the archives of this country and of the United States to the very imposing demonstration of sympathy for the American people in their great loss, which the city of Buenos Ayres had tendered that day—a demonstration which is calculated to draw still closer the friendly relations existing between this country and the United States; and, we believe, in no other part of the world will the American people have received a greater, more unanimous, and more spontaneous expression of public sympathy than that which we all witnessed in this city on last Sunday.

THE COLON THEATRE.

Sunday night at Colon the Grau company scored another triumph.

Carmen was put on in every way perfect. The choruses were far better than on previous representations. The tenor, baritone, soprano and contralto rivalled one another in acting and singing. Each time we see Paola Marie, especially, in this role, the more we admire her. On each occasion her play is varied without for a moment parting from the Andalusian character which she so well assumes. It is rare to witness acting so unexaggerated, bewitching, as only a French artiste can exhibit, and true to life in the most minute action.

Is it assiduous study, or is it a natural gift? We opine both have their share in the result of Paola Marie's impersonations.

We were glad to note a full house, especially in the stalls, cazuela and 'fowl house' as the Gauls have it.

We regret to hear this company will so shortly quit the Plate. 'Take it all in all we ne'er shall look upon the like again,' except Mr Grau should favour us with another visit. No company hitherto has given us such treats, and the public should not lose the few performances which remain.

Paul and Virginia will be given for the last time to-night, and Madame Favart for the last time to-morrow night. We need not remind those who have seen her, of Madlle. Leroux's impersonation of the part of Virginia; it is in every sense inimitable. The truth should be admitted: This lady, both as an actress and a singer is superior to any of the prima donni' of Italian opera we have had here for many years. There is scarcely a weak point in her artistic harness, and we venture to predict that her future career will carry her to the topmost heights of her profession. This gifted lady's benefit is at hand, next week we believe, and we bespeak for her the fullest 'bumper' that the old Colon has ever held. She certainly deserves it.

Mr Grau has kindly consented to give Mignon once more, and if he will only giveus 'Herold's Pre aux Clercs' before leaving he will command an enthusiastic and overflowing houseas well as the gratitude of,

The Gods.

BRITISH HOSPITAL

To the Editor of the *Standard*,
Dear Sir,

A special general meeting of subscribers has been convened for Tuesday, the 27th inst., to continue the discussion relative to the removal of the Hospital from the present site, and to vote the following

Resolution—That the Committee of Management be authorised to sell or mortgage the Hospital property in Calle Bolivar and Defensa, on such terms as may seem to be for the best interests of the Institution; but that prior to closing the transaction they consult with and obtain the written approval of three subscribers, who shall be named at this meeting.

Further—That, the sale or mortgages being effected, the Committee of Management, subject to the approval of the three subscribers aforesaid, are authorized to purchase a suitable site for the New Hospital, which must be easily accessible from the centre of the city.

Further—That, the purchase of ground being effected, the Committee of Management shall present to a special meeting of subscribers a summary of the operations, and submit plans and estimates for new building, when a special Committe can be appointed to carry out the works.

The necessity for removing the Hospital became evident many years ago, when the Committee, with the sanction of the subscribers, purchased the Caballito Land. Unfortunately the site was, and is to the present day, inaccessible. Had it not been so, the Hospital would have been transferred thither.

Since then the successive Committees have taken up the matter. In the Report for the year 1878 it was stated that very decided and expensive alterations would in a short time be necessary; that they had often been the subject of consideration at the meetings of the Committee; and that on one or two occasions admission had been refused to patients, owing to the crowded state of the Hospital. In the Report for the year 1879 the following very serious and important statements are made:—

"The improvement and enlargement of the Southern wing of the Hospital have been carefully considered by the Committee, but they have been advised by the architect, Mr Aberg, who very kindly revised that part of the building thoroughly, that the foundations and walls would not allow of the changes proposed. The plan of thus improving the accommodation by that means has had to be abandoned, but the Committee trust their successors may be enabled before long to supply the Hospital with a ward, which, whilst offering the great advantage of improved ventilation, will also allow of more economical and more systematic attendance on the patients, than does the present style of rooms.

"The Hospital building has again cost a considerable amount in repairs to the walls and plastering, and all the outside doors and windows have been painted. There are several things that ought to be done, but have been left over in the hopes of soon deciding upon some means of replacing the present building—which must always continue to be a source of considerable expenditure on account of the unsatisfactory class of materials and workmanship employed."

Again, in the Report for the year 1880, the Committee urgently call the attention of subscribers to the defects of the present building. It is there stated that "a subject that has occupied the attention of several previous Committees, namely the insufficiency of the accommodation afforded by the Hospital, has again been seriously considered by the Committee of Management, who hold that you should come, without further delay, to a decision on the course to be adopted to remedy the want. The defects of the present building became more particularly evident after the arrival of the female nurses, who found themselves without the most ordinary and necessary contrivances for the proper discharge of their duties in the wards. Some of these defects are in course of removal, but the Committee are of opinion that the present premises can never be converted into what the Charity so sorely needs—a properly arranged and commodious building."

Now, Sir, I maintain that all this indicates a most unsatisfactory state of matters, and we must most assuredly take blame to ourselves for having allowed it to go on for so long. Doubtless this was the feeling which induced the Committee to call the special general meeting at which I proposed the resolution which is to be discussed on Tuesday.

The inadequacy and unsuitability of the present building has become a fact patent to all; and the only point for argument is, whether a new Hospital shall be erected on the present ground, or whether ground shall be purchased elsewhere for the purpose. In plainer words, Sir, whether we shall build on ground worth eighty dollars per square vara, or on ground worth twenty-five dollars per square vara. You may say that there need be no doubt at all about it and I should quite agree with you, But, strange to say, there are some gentlemen who seem to think that there is not another eligible spot within the city boundaries, and that instead of devoting the $731,500, (the amount of the difference between the prices I have mentioned,) for the erection of a new hospital, we should call the community to raise this enormous sum by subscriptions, or bazaars, or raffles.

I may here mention that a block of the Tamini land at the Hueco de los Sauces, surrounded by a wall, with veredas, and a paved street on all four sides, was sold the other day by the Banco Hypotecario at fifteen dollars per square vara.

I will now prove to you by a few figures that the whole operation can be carried into effect with the assistance of the Banco Hypotecario, without calling upon the Committee for a single dollar.

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipu

I will suppose the Caballito land which stands in the books at $1,185,262, to be only worth .... $ 70,000
And the Calle Bolivar property, which figures for $1,750,000 as worth $70 per square vara or 930,000

Total $1,000,000

The Bank would then advance 500,000
12,000 square varas of land to be purchased at $25 and also mortgaged for 150,000

To pay land $300,000
15 months int. to bank .. 73,125
Amortization 16,250 16,250
New building 260,625

Total $650,000

Bank remaining creditor for 633,750
A sixth quarter's service of the debt would be interest $14,625 and amortization 3,250

630,500
Then sell Bolivar property for 930,000

299,500
Less above quarter's interest 14,625

Surplus in cash 284,875

Spent on new building as above 260,625
We can also spend the special fund which amounts to about 130,000

390,625
And on selling the present site the above mentioned sum of 284,875

Total fund available for new building 675,500

As the quarterly service of the debt to the Bank would only amount to $14,625 plus $3,250 or $17,875, ample time is left for selling the present site.

Thes operations being all carried out the Community would then possess—

A splendid Hospital costing $676,000
The land on which it stood 300,000
And the Caballito Land which is worth at this moment 100,000

1,075,500

There are very important reasons why we must leave the present site, which I do not wish to mention just now, but with which all the gentlemen who served on the Committee are well acquainted, as are also many of the subscribers. Apart from such reasons, I do not consider that the locality is even now a healthy one, and, in the immediate future there is no doubt at all, that it will be a very unhealthy one.

I have put down the present site at $930,000, but it may be valued at $1,500,000. I have no doubt at all events that the Bank would advance $700,000 on this property alone.

Your obedient servant
George H. Tucker

TREATMENT OF SHIPWRECKED SAILORS.

The following correspondence has passed between H.M. Acting Consul and the Captain of the Port in respect to the treatment of the crew of the barque Pride of Devon, which was in collision with an Italian barque in the Outer Roads, and sank in a few minutes; the Captain and crew losing the whole of their effects, and being detained prisoners on the plea of having resisted the constituted authorities.

Buenos Aires, 21st Sept. 1881

Translation.

To the Chief Clerk, in charge of the Captain of the Port's office.

Sir

Referring to the conversations I had with you in reference to the detention of the crew of the British barque Pride of Devon, I request, that you will allow me to make some observations in respect thereto.

1st. The crew were on board their own vessel, and although she had sunk, no one had a right to enter on board without the consent of the Captain or mate.

2nd. Even admitting that the mate had defied the constituted authorities, he cannot be detained againsthis will if after 24 hours have elapsed he has not been notified by a competent judge, as to the cause of his detention.

3rd. By the laws of the nation any person giving sufficient guarantee for the losses and damages sustained is exempt from further detention.

In my letter of yesterday's date I gave this guarantee.

4th. Article 18 of the National Constitution says:—

"The national prisons shall be clean and healthy, not for the punishment, but for the safe custody of the criminals detained therein."

The prison at the Captain of the Port's is wantingin this respect.

The ten sailors detained there have been treated like wild beasts and not like human beings. Biscuits were thrown to them on the ground, and the water they drank was from a bucket presented to them from 'outside' the bars of the cell. Besides, they had to sleep on the damp ground without mattresses or covering of any kind, and one of them has suffered so much that he is now an inmate of the British Hospital.

I think it my duty to call your attention to the foregoing, in order that you may take such measures as you think fit so as to prevent the recurrence of such legitimate complaints as the present.

I am etc.
Ronald Bridgett.
H.B.M. Acting Consul.

Buenos Ayres, Sept. 23, 1881.

To Her Britannic Majesty's Consul.

Your letter of yesterday commenting on the circumstances relating to the detention of the ship wrecked sailors of the barque Pride of Devon has been received.

As this letter was received only yesterday at 2 p.m., a day after the order had been given for the release of all the persons detained, there is no longer any motive for the request contained in the same; accordingly it has been added to the 'sumario' of the beforementioned affair.

I am, &c.,
S. S.,
(Signed) *J. Goyena,*
Chief Clerk.

Translation.

Buenos Ayres, Sept. 25, 1881.

To the Chief Clerk in charge of the Captain of the Port's office.

I have received your note of the 25th inst., and have to state that I consider your reply to my note of 21st to be very unsatisfactory.

I do not allow that the fact of the shipwrecked crew of the barque Pride of Devon being not at liberty concludes this disgraceful affair, and it obliges me to address you again.

In no civilized country would unfortunate sailors have been treated as they have been in this instance, and I energetically protest against the treatment they have received, more particularly as regards the mate, Thomas Gunn, who affirms that he was chained in irons to the mast of the guardship in the most inhuman manner for a period of 34 consecutive hours, which is a shameful and unjustifiable proceeding.

Accordingly, I formally ask that the authorities will take measures that the author of such cruel proceedings be duly punished, and that in future there may be no repetition of such scandalous abuses.

I am, &c.,
(Signed)
Ronald Bridgett,
H.B.M. Acting Consul.

EDITOR'S TABLE

Everything passed off well on Sunday, in spite of a cutting wind, compared with which an Easterly wind in England is a Zephyr. The demonstration to General Garfield's memory was truly grand, and everything was carried out with the greatest order and punctuality. The solemnity of the procession was slightly marred by some of the bands playing 'quick steps' on the march, whilst others played the Dead March, but this was the only slip observable. There was a dense crowd of visitors at the United States Legation. In the procession the foremost men in the country were to be seen, and the 'people' followed, literally 'en masse'. Joy rushed on Sorrow's lingering heels, and our mercurial friends the Italians went in with a will for their postponed fetes. There was a truly enormous crowd all day and all night in and outside the Italian Exibition building in Calle Cerrito. Music, fun and jollity held unlimited sway till nightfall, when magnificent fireworks and illuminations came off, and the whole wound up with a ball. Not an Italian in town went home till morning did appear.

The news by Lamport and Holt's steamer Plato is two days later from London—to 26th ult. It had been raining for ten days almost continuously in most parts of the United Kingdom, and there is too much reason to fear that a large proportion of the cereal crop has been destroyed. This is, indeed, most unwelcome news. The Irish Land Bill, which required the whole session of Parliament to pass, is by no means so voluminous as may be supposed. The *Times* of 27th ult. says:—'The Land Law (Ireland) Act, which received the Royal Assent on Monday, has been issued. It is divided into seven parts, and contains 72 sections, extending to 12 pages.'

We are requested to say that the Special General Meeting of British Hospital subscribers called for to-day has been postponed till October 4th—this day week.

We feel much pleasure in welcoming back from the Interior our highly talented young friend, Mr. Ernest W. White, F.Z.S. He is last from Tucuman, where the people now talk of nothing but sugar from morn till dewy eve: machinery has been ordered in Europe in tons and tons, and never before was Tucuman so prosperous and the people so confident in the future. The report that the coming sugar crop will be short, owing to the canes being destroyed by frost, is all nonsense. Jack Frost certainly did a deal of harm, but there was so much more cane planted than last year that the loss will not be felt. In Catamarca the Car of Progress is rolling along more slowly; what they want there is a railway, and they hope to get it soon. Santiago is shooting ahead, also under the sweetening influence of 'azucar.'

'Patai' cake and sweet lemons make a capital lunch, which we enjoyed yesterday, thanks to Mr. Ernest White's kindness. The cake, which is an Interior delicacy, is made of algarroba seed, and 4lbs. of it can be had for five paper dollars of Buenos Aires money. In Catamarca troops of donkeys are often met, loaded exclusively with the cake, which is called 'chulpo,' when mixed with toasted maize finely ground. Sweet lemons beats oranges to fits in the way of refreshment. They can be had for 10 reals per hundred. By the way, Mr. W. tells us that the Interior is highly likely not to be represented at the Continental Exhibition, by even sweet lemons: they are all asleep in Tucuman, Catamarca and elsewhere, and want stirring upon the point. The Commissioners here should see to this at once.

H.M.S. Dwarf left this port yesterday for Colonia, for her quarterly spell at target practice.

This is the year of Nines. Everything based on 9 is sure to succeed up to midnight on December 31st. We find the following letter in the *Times* on this subject:—"Sir, I do not know whether the following facts with regard to the present year and the mystic number nine, have ever been remarked; if so, I have seen no notice of them, and I think taken in connexion with the prevalent idea that in some way or other this year is to be an unusual one, they are interesting:—One and eight are nine; eight and one are nine; twice nine are eighteen; nine nines are 81. The whole will divide 209 times by nine, and nineteen times by 19."

Next Sunday will be Communion Sunday at the Scotch Church: no Sunday School. A collection will be mads for the Colonial Scheme of the Church of Scotland. On Friday a preparatory service, at which the Rev. Mr. Gebbie will officiate, will be held at 7 o'clock p.m.

We call attention to the advertizement of the River Plate Telegraph Company announcing a reduction in the price of messages between this and Montevideo. With the electric fluid so cheap, no one need now trouble himself with ink for communicating with friends on t'other side of Jordan.

The weather knocks everything on the head now (it was, for a wonder, fine yesterday for the Lujan Races), and we hear that the Navarro Races have been postponed to the 6th and 7th of October, by which time meteorological affairs will probably have settled down.

The Spring and Summer Horticultural Shows will commence tomorrow week at 101 Calle Reconquista. Any one can send exhibits. The Rose Shows are expected to be splendid this year.

A copper mine within 8 leagues of the city of Cordoba, formerly abandoned, has been taken up by a private company: the specimens of ore sent down to Buenos Aires for analysis have given wonderful results. Of course they have. What on earth would be the use of a sample from a new mine if it did not give wonderful results. That's its business,

In Rosario they are talking of building a Hippodrome on the ground used by the English cricketers when they indulge in our national game, which, according to the statistics we published last week, is a grand one for shortening life and leading to Bedlam when too freely indulged in.

Mr. Ernest White, F.Z.S., lately received from Her Majesty's Private Secretary at Osborne, a gracious acknowledgment of Her Majesty having duly received from him a copy of his work, 'Cameos from Silver Land.' This valuable book is, we understand, now on sale at the Libreria Europea in Calle Florida. The edition for home was all eagerly snapped up in England.

The news by the Plato are in our Supplement.

A Mendoza paper to hand yesterday predicts tremendous hail and rain at the end of this month and a summer one of the hottest that ever the sun turned out. We object to any more hail or rain, at least for the present

The *Patria Argentina's* 'penchant' for distinguished criminals enabled the public to see yesterday in its columns a portrait of Guiteau, the murderer of poor President Garfield. He looks cut out for the end that awaits him: a repulsive countenance, though not, in mere features, a very bad one.

A tramcar conductor of the B. Aires Tramway Company, carelessly carried his bell-pnuch home with him and allowed his children to play with it. The next day, when the company informed him that he was nine million nine hundred and ninety-nine fares short, his hair rose so rapidly that his hat, in banging against the ceiling, broke off fifteen yards of plaster.

We are informed that the entertainment of the English Literary Society will take place next Wednesday week or on next Wednesday fortnight, when, besides some choice music and recitations, an adaptation in English of Scribe's famous comedy of 'First Love' will be given in which some of our well known amateurs willl take part. The plot of the play will be published before the performance.

The Indians have made another serious foray at Sumampa, Santiago del Estero, and carried of persons, flocks, herds and horses in great numbers.

The worthy inhabitants of Chivilcoy must have rather queer notiosn of what a funeral should be. A telegram from that quarter to a colleague says that the demonstration to President Garfield's memory was celebrated there on Sunday with '2 bandas de musica; fuegos artificiales; orden completa; gran alegria!' This beats anything we have seen yet.

The new Provincial Capital question hangs fire, and bets are made that Christmas Day want see it decided.

The cry of 'Dear Meat' is becoming louder every day, and the butchers and the Municipality are denounced in every language under the moon, principally in Italian. There is no reason whatever for meat being dear this year, as sheep and cattle are cheap and fat. Lynching a prominent butcher or two might lead to reform.

Telegrams were received yesterday announcing the death, at Cordoba of Dr Luis Velez, National Senator for that province. The deceased gentleman was editor of the *Eco*, and a man of the highest attainment, scrupulous honour and personal worth.

The Cordoba porcelain experiment on Sunday was a 'fiasco'; only one plate came out fit to hold a beefsteak; the others barely fit for porridge.

A square of the barranca at Santa Fe fell into the river on Sunday, and another tumbled after it yesterday. Nobody killed.

Our American cousins are really wonderful hands at new inventions. On the Pennsylvania Railway they have now got a special car which in running over the lines registers all the imperfections of the track—false levels, loose points, irregular space between the rails etc. etc We want a car of this kind very badly on our city tram lines. The 'offs' are now something fearful and occur in almost every square.

The President of the English Literary Society asks us to inform the members of the Society that the following address, presented to General Osborn, will, with the kind consent of the latter, remain for some days on the table at the American Legation, in order that all who desire to add their signatures to it may be able to do so:—

"Buenos Ayres, Sept 25, 1880.

General Osborn, United States Minister Plenipotentiary.

"General,

"We, the undersigned members of the English Literary Society, beg that you will kindly accept this expression of our condolence in presence of the sad news which has informed us of the fatal effect of the wicked act which has robbed your Great Republic of a worthy President.

"We fervently trust that the splendid demonstration of sympathy which you have this day received serves to show that a feeling of abhorrence for sneaking assassins is rapidly increasing with the progress of civilization.

"We have the honour to be, General,

"Your obdt. servants,

Patacons	25.60
Cedulas A	99
National Bank Shares	126½
National Bonds 1883	98

The week has opened with a weaker market for gold, and a better market for Cedulas and Bank Shares. It was said that to-day the Provincial Minister's project to aid the Mortgage Bank was sent before the Legislature, and this news at once improved the stock; still although prices on time advanced, the stock was very much offered for cash, and cash prices showed no improvement.

The gold market for long dates ruled weaker than on Saturday, and this was owing to the better news said to have been received about the Chilian question; nevertheless it was remarked that the heavy sellers of gold on Saturday on time sold nothing to-day, and the gold market shows no signs for the present of further decline.

Gold opened at 25.55 cash and closed at 25.60; cash sales, 68,900 pats. For the end of the month everything seems to be closed since the sales to-day only reached 25.60, and a few small sales for Nov. and Dec. at 25.55.

In Cedulas there was decided improvement, and many buyers offering for long dates; prices for end of Oct. rose to 99½ and dropped to 99⅜, and for Nov. at 99½. Total sales, 285,500.

National Bank Shares rule firm but quiet; prices show an improvement on Saturday, and the impression is that the month's liquidation will be at about the present rates. A meeting of brokers interested in the matter spoken of on Saturday was held to-day, and it is generally said that owing to the great respectability of the outsider all will be paid.

The share market does not appear to be much affected by the matter, as prices for the end of the month opened at 126⅜ and closed at 127. For October there was a brisk business enough, opening at 128, dropping to 127½, and closing at 123.

National Bonds one sale, 12,000, at 93.

It was announced on 'Change to-day that the River Plate Telegraph Co. reduces its tariff for messages on and after October 1st fifty per cent. This was the best news on 'Change to-day, and three cheers were given for Mr. Oldham, the popular manager. His was the first telegraph line established in these countries, and is now the first to set the example of reducing the charges. We congratulate the Company on the move, and feel certain that it will lead to a great expansion of its business. The notice will be found in another column.

We notice in the London papers received per Plato that, strange to say, both Argentine and Chilian stocks are falling in that market. We attribute this, however, to the advance in the Bank of England rate; however at the bankers meeting held last month at Niagara Falls one banker rather astonished the meeting by predicting a tremendous money crisis both in London and New York, due to the recent enormous inflation of stocks and new enterprises.

Sterling exchange ruled weaker to-day than on Saturday, but francs are still freely offered. For the last French mail one of the largest exhange drawing houses in this market drew nothing. Francs were passed to-day at 5.35, and some artista paper at 5.28, and last week artista paper was done at 5.30.

Mr Kinch, of the leading firm of R & G Carlisle, was enveloped in friends when he entered the hall; he was absent 18 months.

We call the attention of English merchants to a letter in another column on the British Hospital meeting to be held to-morrow (Tuesday) week.

We hold for to-morrow fresh advices received to-day from Chubut and Mendoza, also Rosario.

Mr R F Basavilbaso's "Weekly Market Report" was given round to-day; it is well got up and very carefully compiled, and we recommend it to barristeros.

Discount brokers report gold dis ounts much easier than paper, and much enquiry for Nat. Government Provedores Bills, but few offering.

Brokers report sterling exchange to-day weaker, but francs freely offered.

The report of the Western Railway for 1880 was given round to-day.

The Provincial Bank discounted to-day 5 millions.

There was great talk this afternoon about the coming liquidation, and the bulk of the business doing is to close up transactions.

Messrs Duggan sold this morning—
150o ar. wool at 76

An extraordinary tramway accident was reported by the barraqueros; a large open car in turning the corner entering Calle Rivadavia turned over, luckily there were no passengers, but it is the first accident of the kind that ever occurred.

The Herschell is loading fast, we hear she will take some 15,000 bags maize.

Gold at afterhours ruled at 25.55 buyers for end of month, shares at 126, and Cedulas at 99⅜. Shares for Oct. at 127½ buyers.

Mr Gonsalez leaves in a few days to survey 800 leagues South of Rio Negro.

The great lawsuit between Mr Jäger and the Directors of the Consumidores Gas Company was decided to-day in the Supreme Court in favor of Mr Jäger, which rescinds the sale and is a most serious affair.

At afterhours the market presented a little change, gold firmer, and shares weaker, as for Cedulas on the impulse of the new project buyers are offering, and many think they will touch par to-morrow.

Yesterday the fine site in Calle Santa Fe with house &c was sold by auction, No. 625, the site is 15½x70 with martillo 34x42, for 337,000; the property belonged to the estate of Gil Mendez.

The storm yesterday morning did no harm in the Outer Roads, some of the steamers dragged their anchors nothing more.

The Pacific str. Cordillera will leave Montevideo on Wednesday 28th inst., consequently the passengers and mails will leave to-day, Tuesday per Messenger.

The Plate's mails were delivered to-day; we find in the *Times*, 26th Aug., the following:—

"As has now been anticipated for some days, the Bank Directors have to-day advanced their rate from 3 to 4 o/o. As we have also led our readers to anticipate, the Bank of France has likewise raised its rate from 3½ to 4 o/o, thus indicating a total change of policy on its part from that pursued last year. It has now to be seen what the effects of these movements will be in checking the drain of bullion to the U. States, and in attracting a supply from other quarters. A sufficient time must be allowed to elapse in order to test these effects, but it appears already so far probable that a 4 o/o rate will not suffice as to make the contingency of a further advance in the rate already come into view. While it is now hoped that the contractors for the Italian loan, having supplied themselves with a considerable part of what they require this year, and having 4 months to spare for their operations, will shortly refrain even from the indirect demands they have been lately making, it is still the opinion in the best-informed quarters that the American drain, which is by far the more serious one of the two, will go on. Should this be the case, there can be little doubt of a further rise in rates. It is not improbable, we hear, that a further sum in gold will be withdrawn from the Bank for the U. States to-morrow, and those concerned with the market must continue to watch closely the state of affairs in New York, and the quotations of the New York exchange. Unfortunately, however, there is still no great amount of business going to the Bank, the increase in the private securities during last week, notwithstanding the reported firmness of the outside market, having been only £766,000. This absence of demand at the Bank makes it very difficult for the Directors to act. By raising their rates quickly in such circumstances they run great risk of lying out of the market altogether. The apprehensions of a bullion drain now entertained should make outside dealers more careful and disposed to strengthen the hands of the Bank. Is ought to be obvious to them that they may have to pay dearly for advances later on by lending too freely now"

Mr Ernest White has arrived down from Tucuman and brings the most pleasant advices from that quarter. He says the whole country has gone wild on sugar, and nothing else is talked of at the Hotels, Clubs, &c. but new machinery and new plantations. Along the line of railway are piles of sleepers out for the Andine Railway; cane planting is going on everywhere, and Mr White says there is a stir going on up the country of which the people in B. Aires have not the slightest idea.

Advices from the Samborombon district are unfavorable; too much rain and water; the river has flooded the country around, and we hear of one flock of sheep, some 2,000, all drowned. At other parts of the South the rain has not proved too much, and the camps are beautiful.

We hear that a lot of new wool bought on contract last week is offering in the market for resale. The letters from Europe about the wool markets are most dreary; the stock of wool is excessive, and merchants write that if there was no River Plate clip at all this year, such is the enormous stock on hand, prices would hardly advance 5 centimes. This seems a very gloomy picture, and perhaps overdrawn; cotton is rising in Europe, and there are really many reasons for believing that wool has at last touched bottom.

There was much talk on 'Change about a certain party who has been speculating for a fall in National Bank Shares, and whose losses they say reach 80,000 pats. Owing to this affair, it seems, he has retired from the firm in which he was partner, but the brokers in the matter are considered to be well secured, and the losses will have to be paid by the firm in question. The matter is another evidence of the severe losses on the Bolsa by outsiders.

Messrs G Gowland & Co.'s auction of land at Ensenada was postponed until Thursday, as what with the weather, and the Garfield, and the Italian demonstrations last Sunday it was the worst day in the whole year to call an auction.

During the gale on Sunday morning we regret to say that the wall of a new house in course of erection, close to the Once, was blown down, crushing a child, and wounding a woman; while it lasted the gale was something unusually severe.

Advices from Rio by the mail give the following:—

"The Sp. bgn. Marcelino, 16 days from Barcelona with a cargo of wine, bound for Buenos Aires, put into this port for water on the 12th instant.

"The Braz. gunboat Principe do Grao Para struck on the Preguiças reefs near Maranhao on 10th inst. No lives were lost, and there was a probability of saving the vessel. Later telegrams report the vessel as totally lost.

"Advices from Rio Grande do Sul, dated 4th inst., state that the Br. ing. Mary Jamieson, on entering the bar of Rio Grande, struck, but got off again next day, aided by the tide.

"The Am. ship Thomas Dana, from New York for San Francisco, Col., which entered this port in distress on June 16th, having finished her repairs, sailed hence for her destination on the 7th inst.

"The Braz. str. Imbetiba, belonging to the Macahé e Campos Railways, which left this port at 4 p.m. on 10th inst., went ashore at Praia da Massambaba at 12 p.m. Crew and passenge s were saved, but the steamer was considered totally lost The vessel was insured for $200,000 in various Rio Companies.

"On 7th inst., while crossing the bar of Itajahy, the national bgns. Octavio, Villa Flor, and Tupa ran aground. The first got off again at once, the second later on, but the Tupa was totally lost, the crew and the greater part of the cargo being saved.

"The U States lighthouse service has placed an experimental Pintsch gas illuminated buoy at the entrance to the harbor of New York. The new buoy is solely an experiment and will be removed should it not prove satisfactuory. The buoy will show a continuous white light, and is located about one-third of a mile from the wreck of the Scotland lightship, and near the South channel entrance buoy, with the following bearings:—Scotland lightship, S E by S.; Highland lights, S.W."

Cien leguas de Campo
En Santiago del Estero
Orden del Exmo Gobierno de esa Provincia
Con derecho a ubicar donde se quiera
Primera vez que se vende con esta condicion
SIN BASE ALGUNA
Venta a Plazos
En nuestra casa San Martin No 51
El Miercoles 5 de Octubre
A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de santiago ha sido, como lo de cimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi succesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta a guna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averigmar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

En su carta de remision nos dice:—

"El 'groom' que va cuidando los animales entregara a Vd. los 'pedigrees' en verdadera forma.

"Creo conocer bien a mi tierra y la competencia del gremio de hacendados, y me parece que las 4 piezas que mando satisfacaran completamente sus exigencias. Ignoro los animales que se hayan presentado al remate despues de mi salida, pero mientras yo permanecia alli, puedo garantirles que jamas se han vendido toros ni de la sangre ni del tipo de los que mando.

"Tengo la conciencia que perdere dinero, pero la tengo tambien que no he perdido el ojo *en lo vacuno* por mas que por aqui hay muchas razas de diversos generos, que llaman hoy la atencion.

"En fin, Vds. veran los animales; creo que es lo mejor que ha ido por la tierra."

Cuyo detalle es el siguiente—

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Dielh. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

The Plato's Mails.

London, August, 26th.

In the House of Lords yesterday several measures were advanced, including the Regulation of the Forces Bill, the Newspapers (Law of Libel) Bill, and the Welsh Sunday Closing Bill, which were severally read a third time. The Appropriation Bill was brought up and read a first time.

The House of Commons met at noon, and disposed of the remaining business of the session. A proposal to issue a new writ for Wigan was made, and, after discussion, withdrawn. At half-past two an adjournment took place until half-past one to-morrow, when Parliament will be prorogued.

The great review of Scottish Volunteers by the Queen at Edinburgh took place yesterday. Some 40,000 men took part in the proceedings, and the early portion of the day was pleasantly bright and dry. It was only when the march-past was about to begin, about four o'clock, that the weather gave way, and heavy rain began to fall. The wet continued, and soon the ground, spongy from the rain of the previous days, became a veritable quagmire of soft mud. Still the march-past was completed, and, barring the weather, the programme, as arranged, was successfully carried out. Her Majesty, in spite of the rain, remained throughout in an open carriage.

M. Gambetta has decidod on keeping the seat for the first Belleville circumscription, considering it unnecessary to proceed to another ballot in the second circumscription, where he was returned with a relative majority. In concluding his letter, making this announcement, M. Gambetta says he will persevere in the policy of regular and successive advances, looking for everything to the country, expecting nothing from force, and repelling both Utopian and retrograde politicians.

Lord Dufferin, according to a Constantinople telegram, is being urged by the Porte to have fixed as speedily as possible the tribute to be paid by Bulgaria, seeing that the delimitation of the frontier has now been ratified. The Porte is further anxious to have the quota of the public debt to be borne by Greece, Servia, Roumania, and Montenegro promptly settled.

There would seem to be two Hartmanns in the field. One we have heard a good deal of recently from New York, and now come reports of another individual claiming to be the veritable Hartmann. He was last heard of at Omaha, and was then going eastward.

Colonel Marselli, Secretary of the Staff Committee in Rome, publishss a letter declaring it absolutely essential to provide, by revolutionary means if necessary, for the defence of the Italian Alpine frontier and of the Italian coasts. Italy's present condition he declares to be full of danger.

Reports have reached Constantinople of two severe engagements fought between a Turkish army corps and the Montefit Arabs. The latter were defeated in both encounters, and ultimately sued for mercy.

Our Vienna correspondent states that a project is at present under consideration by the Russian Minister of the Interior, intended to take the monopoly of the trade out of the hands of the Jews in the Western governments of the empire.

No improvement is reported in the weather in the agricultural districts generally, and harvest prospects are becoming even more gloomy than they were. Rain fell yesterday almost without intermission, and much injury has already been done to grain which is cut but remains ungathered in consequence of the wet.

A despatch from Lord Granville to Sir Henry Layard, dated Jan. 14, 1881, intimates to that gentleman the termination of his Embassy to the Sultan. Sir Henry is complimented for the 'energy and ability' with which he conducted the business of the Embassy under exceptional difficulty. His salary ceased from Dec. 31 last.

Yesterday proved a very unfortunate day for the fete at the Alexandra Palace, in behalf of the Metropolitan and City Police Orphanage. It rained heavily throughout the day; but, notwithstanding that, considerable numbers attended, and the fete was, on the whole, successful.

Two men watching the heavy sea from the promenade at Douglas, Isle of Man, yesterday, were suddenly carried off by a wave. Both were good swimmers, and struggled to reach the shore again. Ropes and planks were thrown to them, but they sank within twenty yards of the promenade wall. Hundreds of people were looking on at the time.

Speaking at a Mayoral banquet at Harwich, Sir Henry Tyler, M.P., while eulogising the House of Lords for its discretion in dealing with the Land Bill, declared that the House of Commons had been literally talked to death by Irishmen.

Sir George Elliot has finally decided on contesting the representation of North Durham against Mr Laing, the Liberal candidate. Mr James Lowther has come forward in the Conservative interest for North Lincoln. Mr Asner, the new Solicitor-General for Scotland, has been returned unopposed for the Elgin Burghs.

Yesterday the Bank rate was raised from 3 to 4 per cent., and a general fall occurred in the stock markets, chiefly, however, upon the the wet weather, The decline was most marked in English railways and foreign bonds, the latter being also largely sold on orders from Paris, where the announcement that the Bank of France had also increased its minimum from 3½ to 4 per cent created an unsettled feeling.

AMERICAN RAILWAYS IN MEXICO.

(Concluded).

The character of the concessions to the National and Central Companies is about the same, the privileges and obligations being similar. A telegraph franchise accompanies the route of all the lines of both companies. The subsidies are paid in Government Scrip, which is not only made a legal tender for the payment of Customs duties, but 10 per cent of all such duties must be paid in this Scrip. Materials, locomotives, and machinery of all kinds for these roads or their operation can be entered, free of duty, for 15 years; and no tonnage or light dues are to be collected from vessels bringing them to Mexican ports. The railways themselves, and all their shares, bonds, or obligations of every kind, are exempted from taxes or impost now established or which may be established for 50 years from September, 1880, excepting only stamp duties. All officers and employes are exempt from military service, save in case of foreign war. The companies have the right to organize their own police forces, which have the same prerogatives as the forces of the Mexican Federal Revenue Service. The companies have free right of way through all public lands, and also the grant of all such lands necessary for stations, storehouses, depots etc. They have similar valuable privileges with respect to taking materials from public lands for construction, and the Mexican Government finally binds itself not to grant any other subsidy to any parallel line of railway within 25 leagues on either side of the route. In return for these privileges, the roads are to carry the national mails free, and also to transport Governments troops, munitions of war, and immigrants arriving in the Republic at 60 per cent of current rates. At the end of 90 years the railways themselves revert to the Government, free of debt.

The Mexican Southern Railway, of which General Grant is President, was chartered by the State of New York last March, and embraces prominent Americans and Mexicans in its corporators, among them being Edwin D Morgan, Jay Gould, Porfirio Diaz, Matics Romero, Ignacio Mejia, Jesse Seligman, Solon Humphreys, and General Granville M. Dodge, the latter being the Vice-President. Its Executive Committee are Jay Gould, Frank West, and Russell Sage. The Mexican concessions grant right of way, the importation of materials free of duty, &c, as the others, but do not give any subsidies. The managers preferred this system without subsidy, as they are left substantial control of their transportation rates, and their railways will not lapse into Government control at the end of 90 years, as the others will. The capital is fixed at not less than $1,000,000, and the incorporators have already subscribed $1,000,000 for the preliminary construction account. There has not yet been any public subscription to stock opened. The work of making surveys, which began last May, is advancing rapidly in four divisions. The belief is that the preliminary surveys will be completed this summer, and that construction will begin in the autumn. The length of the projected road and its branches is about 800 miles, and arrangements are making to push the larger part of it to completion. The main line will start from the city of Mexico, where it will connect with the Central and National Companies lines northward to the Rio Grande. From Mexico city it runs S. W. through Pueblo and Tehuacan to the city of Oaxaca. A branch from the coast of the Gulf of Mexico will run either to Oaxaca or to some convenient point on the line to that city. It will have for ports on the Gulf, Vera Cruz and a new harbour at Anton Lezardo, not yet established, but said to be the only really safe harbour on that coast. This was marked as the site for a port during Maximilian's reign, and the company owns 16 leagues of land there, embracing the entire water grant. Steamers will connect from this port with Gould's system of S. Western American Railways at Galveston, in Texas. From Oaxaca also a line will run to the harbour of Huatulco, on the Pacific, and thence a coast railway will be run to the terminus of the Tehuantepec Railway, now constructing. The charter of the Southern Company also provides for the extension of its lines southwest to the Guatemala frontier, if desired.

The above gives an idea of the three great American companies that are covering Mexico with railways. Each has ample capital at its back, and if no untoward event occurs, hundreds of miles of railway will be opened by them every year in Mexico for a long time to come. The projects are gigantic, but they are pushed by men who are accustomed to similarly gigantic railway enterprises in the United States. The Gould combination that is in the 'Southern' Company are well known as vigorous railway builders, and the hundreds of miles of American narrow gauge railways, already worked by the 'Denver and Rio Grande' combination, are a proof that their 'National' Company will be energetically pushed in the Mexican Republic. The 'Atchison, Topeka and Santa Fe' combination are also as vigorously working out their 'Mexican Central' plans as they are on their already completed lines in the south-west. These railway builders have faith in ultimate success, and money is plentiful with them and Mexican labour abundant and cheap. They opened up the almost uninhabited territories of the west and south-west in the United States by pushing their railways almost beyond civilization, and they argue that if this was successful, they cannot be less hopeful in building railways through the better inhabited Mexican Republic. Few people have a proper idea of the populousness of Mexico. It has 10,000,000 people and is a land of large cities. The city of Mexico, whence the various lines radiate, has 250,000 people. Guadalajara, on the projected line of the 'National' Company, has 93,875; Zacotecas, 62,000, and Leon over 90,000. Pueblo, on the 'Southern' Company's lines, has 76,817; San Luis Potosi, 45,000, and Monterey, 37 000. On the projected line from Mexico to Manzanilla there are 23 towns having, with the city of Mexico, 744,000 people. The Mexicans largely live in towns, and the proportion of the rural population to the urban is relatively smaller than in most countries. Thus, the railway builders have a good prospect of business, and if they go on long with the labour of 40,000 men as now, their projects will soon be put to the test of actual results. These immense American railway operations in Mexico will have deep interest for England, whence most of the materials are drawn; and also for the world, which must soon feel the quickening effect of the development of the trade of so important a country.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Reparative Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

To Irish Catholics

The sons of Irishmen in the Plate can now receive, within a few leagues of their homes, on the banks of the River Lujan, and under the very shadow of the Venerated Sanctuary of Our Lady of Lujan, an education in every way adapted to the peculiar circumstances of the Irish in this country.

The Director is an Irish Priest. The terms are exceedingly moderate. For further particulars apply personally or by letter to the Director, Seminario de Ntra. Sra. de Lujan Villa de Lujan.
